# RIDE DESCRIPTION

BikeMaine 2016 begins the week with a breathtakingly beautiful ride along the rocky coast of Maine and an off-the-beaten-path trip to the picturesque village of Corea. We then settle in for some inland miles through Gouldsboro and Steuben, to Milbridge (only for a peek; we'll be back here later in the week) and Harrison. We then head Downeast to Jonesport and our spectacular oceanfront campsite on Kelley Point, a perfect venue for the annual BikeMaine lobster bake.

# TNC SITES OF INTEREST

## Great Wass Island

The Nature Conservancy's Great Wass Island Preserve is a natural gem of Downeast Maine. The island projects farther out to sea than any other land mass in eastern Maine and is home to several rare plants that grow on the island's exposed headlands. The waters of the Gulf of Maine and the Bay of Fundy meet here and mix to produce a cool, humid oceanic climate that is ideal for these plants and unique natural communities. A 4.5-mile hiking trail leads through the preserve's beautiful forests and wetlands.
